1. Introduction

These Terms of Business & Website Use (“Terms”) govern access to and use of the website operated by **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** (“WORKS”, “we”, “us”, or “our”), together with the general basis on which information about our business, capabilities, services, and projects is presented and business enquiries may be initiated through the website.

By accessing or using this website, you agree to comply with these Terms.

Where WORKS enters into a separate proposal, quotation, statement of work, service agreement, project agreement, licence, order, or other written contract with a client or business party, the terms of that specific document will govern the relevant engagement and will take precedence over these Terms to the extent of any inconsistency.

These Terms should be read together with any other legal policies, notices, or terms published on this website that apply to the relevant use, service, or interaction.

2. About WORKS

WORKS TECH CAPITAL INTERNATIONAL L.L.C. is a Wyoming limited liability company organized under the laws of the State of Wyoming, United States of America.

Corporate Address:
30 N Gould St Ste N
Sheridan, WY 82801
United States of America

Website: www.workstechcapital.com
Email: info@workstechcapital.com

WORKS operates across technology and business activities, including software and digital solutions, information technology services, management consulting and business advisory, project management, data processing and digital infrastructure, artificial intelligence and emerging technologies, and technology products and commercialization.

The scope of any specific service, project, engagement, or commercial arrangement will be determined by the applicable proposal, quotation, statement of work, agreement, licence, order, or other relevant contractual documentation.

3. Website Purpose

This website provides general information about **WORKS TECH CAPITAL INTERNATIONAL L.L.C.**, its business activities, capabilities, services, projects, corporate information, and related developments.

Unless expressly stated otherwise, information published on this website:

- is provided for general informational, corporate, and business development purposes;
- does not constitute a binding offer or create a contractual relationship merely by being viewed, accessed, or submitted through the website;
- does not constitute legal, financial, investment, tax, accounting, regulatory, or other regulated professional advice;
- may contain general descriptions or summaries that are subject to change; and
- may be updated, amended, replaced, or withdrawn from time to time.

Any specific engagement with WORKS is subject to agreement on the applicable scope, responsibilities, deliverables, timelines, commercial terms, and other relevant conditions.

4. Use of the Website

You may use this website only for lawful and legitimate purposes.

You must not:

- use the website in violation of any applicable law, regulation, or legal requirement;
- attempt to gain unauthorized access to the website, servers, systems, accounts, or data;
- interfere with the operation, security, availability, or integrity of the website or related systems;
- introduce malware, malicious code, harmful software, or other disruptive technology;
- use automated tools or methods to access, extract, copy, or reproduce website content where such use is unlawful or unauthorized;
- impersonate another person, company, or organization;
- submit false, misleading, unlawful, or fraudulent information; or
- use the website in a manner that may harm WORKS, its systems, rights, reputation, users, or legitimate business interests.

WORKS TECH CAPITAL INTERNATIONAL L.L.C. may restrict, suspend, or block access to the website where reasonably necessary to protect its systems, users, rights, security, or legitimate business interests.

5. Business Enquiries & Service Requests

Submitting an enquiry, contact form, email, message, request, or other communication through this website or any authorized WORKS channel does not by itself create a contract or require **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** to accept, provide, or perform any service.

Following an enquiry, WORKS may request additional information to understand the requirements, assess the proposed scope, determine suitability, and identify any legal, technical, commercial, operational, or third-party considerations relevant to the requested service or project.

A binding engagement will normally arise only when the applicable proposal, quotation, statement of work, service agreement, project agreement, licence, order, or other relevant contractual document has been accepted in accordance with its terms.

WORKS reserves the right to decline any enquiry, request, proposed project, or engagement where appropriate, including where the requested activity falls outside the Company's scope, capabilities, legal requirements, professional position, commercial criteria, or risk tolerance.

6. Scope of Services

The nature, scope, and method of delivery of services provided by **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** may vary according to the requirements of each client, project, engagement, or assignment.

Services may be provided:

- as standalone services;
- through connected or complementary capabilities;
- as part of a broader integrated solution;
- directly by WORKS; or
- where appropriate, in coordination with qualified third-party providers, consultants, contractors, or specialists.

The specific scope, deliverables, responsibilities, assumptions, timelines, dependencies, and commercial arrangements applicable to any engagement will be defined in the relevant proposal, quotation, statement of work, service agreement, project agreement, licence, order, or other contractual documentation.

WORKS may also adapt the method of delivery, resource structure, technical approach, or service model where reasonably necessary, subject to the applicable agreement and agreed scope.

7. Proposals, Quotations & Estimates

Unless otherwise stated in writing by **WORKS TECH CAPITAL INTERNATIONAL L.L.C.**:

- proposals, quotations, and commercial offers are valid only for the period stated in the relevant document;
- estimates are indicative and may be revised where the final scope, requirements, assumptions, technical conditions, delivery method, or third-party costs change;
- quoted prices may exclude applicable taxes, government charges, licences, subscriptions, hosting fees, platform charges, travel expenses, third-party costs, or other external expenses unless expressly included; and
- no work is required to begin until the applicable scope, commercial terms, and contractual arrangements have been agreed.

Any change to the agreed scope, requirements, deliverables, assumptions, dependencies, or timeline may result in a revised quotation, additional fees, changes to delivery dates, or other adjustments reasonably necessary for the engagement.

Where a proposal, quotation, estimate, or commercial offer contains specific terms that differ from these general Terms, the specific terms of that document will apply to the relevant engagement.

8. Client Responsibilities

Clients are responsible for providing **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** with the information, instructions, decisions, approvals, access, materials, and cooperation reasonably required for the performance of an agreed service, project, or engagement.

Clients should ensure that information, documents, data, content, credentials, specifications, and other materials supplied to WORKS are accurate, lawful, complete where reasonably necessary, and suitable for the intended purpose.

Clients are also responsible for obtaining any internal approvals, permissions, licences, consents, or third-party rights required for materials, systems, data, or instructions they provide or authorize WORKS to use.

Where delays, additional work, rework, or additional costs arise because required information, access, approvals, decisions, materials, or cooperation are not provided on time or are materially incomplete or inaccurate, WORKS may reasonably adjust the scope, timetable, delivery method, resources, or charges in accordance with the applicable agreement.

9. Third-Party Services & Providers

Certain services, projects, solutions, or business activities of **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** may involve third-party products, platforms, technologies, professional advisers, cloud or hosting providers, payment providers, software vendors, registries, contractors, consultants, suppliers, or other external service providers.

Where third-party services or products are involved:

- separate terms, licences, policies, fees, service levels, or technical requirements may apply;
- availability, performance, continuity, support, and other aspects may depend on the relevant third-party provider;
- approvals, registrations, verifications, platform decisions, licences, or other determinations made independently by third parties remain outside WORKS's direct control; and
- third-party intellectual property, privacy, data, security, and usage requirements remain subject to the applicable rights, terms, and policies of the relevant provider.

WORKS may, where appropriate and within the scope of an agreed engagement, coordinate, integrate, implement, manage, support, facilitate access to, or commercially represent third-party products or services.

Unless expressly agreed otherwise in writing, the involvement of WORKS with a third-party product, service, platform, provider, or authority does not create ownership, agency, partnership, exclusivity, or guarantee of any third-party outcome beyond the scope expressly assumed by WORKS under the relevant contractual arrangement.

10. Professional & Regulated Services

WORKS TECH CAPITAL INTERNATIONAL L.L.C. provides technology, business, management, advisory, project, professional, and related support services within the scope of its approved activities and the requirements applicable to each engagement.

Unless expressly stated and lawfully authorized, WORKS does not provide or hold itself out as providing regulated financial services, investment advisory or management services, legal services as a law firm, statutory audit services, regulated tax or accounting services, certification or accreditation services, or other regulated professional services requiring specific authorization, registration, licensing, or professional qualification.

Where an engagement requires legal, tax, accounting, regulatory, financial, intellectual property, engineering, certification, or other specialist professional services, WORKS may, where appropriate and legally permitted, coordinate with suitably qualified and authorized external professionals or service providers.

Clients remain responsible for obtaining specialist professional advice where required for their specific circumstances, unless such advice is expressly included within an agreed and lawfully authorized engagement with WORKS or an appropriately qualified third party.

11. Intellectual Property

Unless otherwise agreed in writing, all intellectual property rights in the **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** website, corporate identity, trademarks, logos, slogans, branding, website design, text, graphics, documents, software, digital assets, methodologies, and other original materials belong to WORKS or are lawfully used by the Company.

Website content may be viewed and used for legitimate personal or internal business purposes only.

You must not copy, reproduce, modify, distribute, publish, license, commercially exploit, or otherwise use substantial parts of the website content or Company intellectual property without prior written authorization from WORKS, except where permitted by applicable law.

Intellectual property rights in deliverables, software, designs, documents, data, methodologies, or other materials created or provided in connection with a client engagement will be governed by the applicable proposal, statement of work, licence, service agreement, project agreement, or other relevant contractual documentation.

Nothing on this website grants any licence, ownership interest, assignment, or other intellectual property right unless expressly stated in writing.

12. Client Materials & Third-Party Rights

Where a client provides **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** with documents, data, content, trademarks, software, images, specifications, credentials, systems access, or other materials, the client is responsible for ensuring that it has the necessary rights, permissions, licences, consents, and authority for their intended use.

WORKS may rely on information and materials supplied by the client unless the applicable engagement expressly requires independent verification.

Clients must not provide or authorize the use of materials that unlawfully infringe the intellectual property, privacy, confidentiality, contractual, data protection, or other rights of any third party.

Where third-party rights, restrictions, licences, or permissions affect the use, modification, integration, publication, distribution, or commercialization of client-supplied materials, the client is responsible for disclosing those requirements to WORKS in a timely manner.

WORKS will use client-provided materials only to the extent reasonably necessary for the relevant engagement and in accordance with the applicable contractual arrangements.

13. Confidentiality

Where confidential, proprietary, commercially sensitive, technical, financial, operational, project-related, or other non-public information is exchanged in connection with a proposed or active engagement, **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** and the relevant client or business party should handle such information responsibly and in accordance with the applicable contractual, legal, and professional obligations.

Confidential information should be used only for the purposes for which it was disclosed and should not be shared with unauthorized persons except where disclosure is required by law, necessary for the relevant engagement, or otherwise expressly permitted.

Where appropriate, confidentiality obligations may be set out in a separate non-disclosure agreement, service agreement, project agreement, statement of work, or other contractual document.

Nothing in these Terms requires either party to disclose information that it is not legally or contractually permitted to disclose.

14. Data Protection & Privacy

Personal information collected through this website or in connection with the business activities, services, projects, communications, or professional engagements of **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** is handled in accordance with our **Privacy Policy** and applicable privacy and data protection requirements.

Our **Privacy Policy** explains how WORKS may collect, use, store, share, protect, and otherwise process personal information, together with the rights that may be available to individuals under applicable law.

Where a specific service, project, or contractual engagement involves additional data protection requirements, those requirements may also be addressed in the relevant agreement, statement of work, data processing terms, confidentiality arrangements, or other applicable documentation.

The use of cookies and similar technologies on this website is addressed separately in our **Cookie Policy**.

15. Fees & Payment

Fees, payment schedules, currencies, deposits, milestone payments, invoicing arrangements, and other commercial terms applicable to services provided by **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** will be specified in the relevant quotation, proposal, statement of work, invoice, service agreement, project agreement, order, or other applicable contractual documentation.

Unless otherwise agreed in writing:

- invoices are payable within the period stated on the invoice or applicable commercial document;
- third-party fees, government charges, licences, subscriptions, platform costs, travel expenses, or other external costs may be payable separately where not expressly included;
- commencement, continuation, or delivery of work may be conditional upon receipt of an agreed deposit, advance payment, milestone payment, or other required amount; and
- overdue amounts may affect the continuation, timetable, delivery, access, or availability of the relevant service, subject to the applicable agreement and law.

WORKS will not impose fees or charges that are inconsistent with the agreed commercial terms or applicable law.

Where taxes, duties, withholding, bank charges, currency conversion costs, or similar amounts apply, responsibility for such amounts will be determined by the applicable agreement, invoice, law, or payment arrangement.

16. Cancellation & Refunds

Cancellation, termination, and refund arrangements for services provided by **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** may vary depending on the nature of the service, the stage of work, committed resources, third-party costs, and the applicable contractual terms.

Further details are set out in our **Cancellation & Refund Policy** and, where applicable, in the relevant quotation, proposal, statement of work, service agreement, project agreement, order, or other contractual documentation.

Unless otherwise required by applicable law or expressly agreed in writing, amounts already earned, work already performed, non-recoverable third-party costs, committed resources, licences, subscriptions, or other incurred expenses may be non-refundable.

Where mandatory consumer rights apply, nothing in these Terms is intended to exclude or restrict those rights.

17. Service Timelines & Delivery

Any delivery dates, milestones, schedules, or completion timelines provided by **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** are based on the information, scope, assumptions, dependencies, and conditions known at the time they are established.

Unless expressly guaranteed in a written agreement, such dates and timelines should be treated as planned or estimated targets rather than absolute commitments.

Timelines may be affected by factors including:

- changes in scope or requirements;
- delayed client information, approvals, decisions, access, or cooperation;
- third-party dependencies or approvals;
- technical, operational, infrastructure, or system issues;
- regulatory or governmental requirements;
- force majeure or other events beyond reasonable control; and
- other circumstances materially affecting the engagement.

Where appropriate, WORKS may revise the relevant timetable, delivery sequence, milestones, resources, or implementation approach and will seek to communicate material changes affecting an agreed delivery arrangement.

Delivery will be deemed complete in accordance with the acceptance, handover, access, completion, or other delivery criteria specified in the applicable contractual documentation.

18. Website Availability

WORKS TECH CAPITAL INTERNATIONAL L.L.C. seeks to maintain reasonable availability and functionality of its website and related digital channels.

However, access to the website may from time to time be interrupted, limited, delayed, or unavailable due to maintenance, updates, security measures, technical issues, infrastructure or network failures, third-party dependencies, or other circumstances beyond reasonable control.

WORKS may modify, suspend, restrict, or withdraw any part of the website where reasonably necessary for operational, technical, security, legal, or business reasons.

Unless expressly stated otherwise, WORKS does not guarantee that the website, its content, or any digital feature will always be available, uninterrupted, error-free, or compatible with every device, system, browser, or network.

19. Accuracy of Website Information

WORKS TECH CAPITAL INTERNATIONAL L.L.C. seeks to ensure that information published on this website is accurate, current, and presented in good faith.

However, website content may include general descriptions, summaries, estimates, illustrative information, or material that may change over time.

WORKS does not warrant that all website information will always be complete, error-free, continuously current, or suitable for a specific commercial, legal, financial, technical, operational, or professional decision.

Users should obtain appropriate confirmation, clarification, or professional assessment before relying on website information for any material decision, transaction, project, investment, legal matter, or other significant purpose.

Where website information conflicts with an applicable contract, proposal, statement of work, licence, official corporate record, or other controlling document, the relevant controlling document will prevail.

20. Limitation of Liability

Nothing in these Terms excludes or limits any liability of **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** where such exclusion or limitation would be unlawful under applicable law.

Subject to applicable law and any specific contractual agreement, WORKS will not be liable for losses arising solely from:

- reliance on general website information without appropriate verification, professional advice, or project-specific assessment;
- unauthorized, unlawful, improper, or incompatible use of the website, its content, systems, or digital features;
- third-party websites, platforms, products, services, providers, authorities, or decisions outside WORKS's reasonable control;
- interruptions, delays, technical failures, cybersecurity incidents, infrastructure issues, or other events beyond reasonable control;
- inaccurate, incomplete, delayed, or unlawful information, instructions, materials, or approvals provided by a client, user, or third party; or
- actions or omissions taken by independent third parties.

Any liability relating to a specific client engagement, service, project, deliverable, licence, or commercial arrangement will be governed primarily by the applicable contractual documentation.

To the fullest extent permitted by applicable law, WORKS will not be liable for indirect, incidental, special, consequential, exemplary, or punitive damages, or for loss of profits, revenue, business opportunity, goodwill, data, or anticipated savings, except where expressly agreed in writing or where such limitation is prohibited by law.

21. External Links & Third-Party Platforms

This website may contain links to, references to, or integrations with websites, platforms, applications, social media services, payment services, maps, communication tools, or other resources operated by third parties.

Such links, references, or integrations are provided for convenience, functionality, communication, or informational purposes and do not necessarily constitute endorsement, approval, partnership, or affiliation by **WORKS TECH CAPITAL INTERNATIONAL L.L.C.**

WORKS is not responsible for the content, availability, security, privacy practices, terms, policies, accuracy, or independent operations of third-party websites, platforms, or services.

When you access or use a third-party website, platform, application, or service, your use may be subject to the terms, policies, and privacy practices of the relevant third party.

Users should review the applicable terms and privacy information of third-party services before relying on them or providing personal, financial, business, or other sensitive information.

22. Force Majeure

To the extent permitted by applicable law and subject to the terms of any relevant agreement, **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** will not be responsible for delay, interruption, or failure to perform obligations caused by events or circumstances beyond its reasonable control.

Such events may include:

- natural disasters, severe weather, fire, flood, earthquake, or other major natural events;
- war, terrorism, civil unrest, strikes, labor disruption, or public disorder;
- governmental, regulatory, judicial, or emergency actions;
- major failures of telecommunications, internet, utilities, infrastructure, hosting, cloud, or technology services;
- cybersecurity incidents, system failures, or widespread technical disruption not reasonably preventable by WORKS;
- epidemics, pandemics, public health emergencies, or significant travel restrictions;
- failure or interruption of critical third-party services or supply chains; and
- other events that could not reasonably have been prevented, avoided, or controlled.

Where such an event materially affects an engagement, WORKS may reasonably suspend, reschedule, extend, modify, or reorganize performance for the duration and impact of the event.

WORKS will seek, where reasonably practicable, to communicate material effects on agreed services or delivery arrangements.

23. Suspension or Termination of Services

Subject to the applicable agreement and law, **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** may suspend, restrict, or terminate a service, project, engagement, or related access where reasonably necessary, including where:

- agreed payments remain materially overdue;
- required information, approvals, access, cooperation, or client responsibilities are not provided;
- continuing the engagement would be unlawful, restricted, unsafe, or inconsistent with applicable regulatory or professional requirements;
- there is a material breach of contract, misuse, misconduct, fraud, or other serious concern;
- a third-party dependency, authorization, licence, platform, or service necessary for performance becomes unavailable or is withdrawn; or
- circumstances arise that make continued performance impracticable, commercially unreasonable, or inappropriate.

Where reasonably practicable, WORKS may provide notice and an opportunity to address the relevant issue before suspension or termination, unless immediate action is necessary for legal, security, operational, risk, or other legitimate reasons.

The consequences of suspension or termination, including outstanding fees, completed work, committed resources, deliverables, access rights, third-party costs, confidential information, and intellectual property, will be determined in accordance with the applicable contractual documentation and law.

24. Consumer Rights

WORKS TECH CAPITAL INTERNATIONAL L.L.C. primarily provides technology, business, project, advisory, and professional services to companies, institutions, organizations, projects, professionals, and other business clients.

Where an individual enters into an agreement with WORKS as a consumer and mandatory consumer protection law applies, the individual will retain the rights and protections provided by the applicable law notwithstanding any provision of these Terms.

Where required, WORKS will provide any additional information, notices, cancellation rights, refund rights, or other consumer protections applicable to the relevant transaction, service, distance contract, or jurisdiction.

Nothing in these Terms is intended to exclude, waive, or restrict any mandatory consumer right that cannot lawfully be excluded, waived, or limited.

25. Electronic Communications

When you communicate with **WORKS TECH CAPITAL INTERNATIONAL L.L.C.** through email, website forms, messaging applications, telephone, video conferencing, social media, the **Unified Electronic Window**, or other authorized digital channels, you consent to receiving communications electronically through those channels, subject to applicable law and your communication preferences.

Electronic communications may include enquiries, proposals, quotations, contracts, invoices, project updates, service notices, administrative messages, support communications, and other business-related information.

You are responsible for ensuring that the contact information you provide is accurate, current, and accessible, and for maintaining appropriate security over your email accounts, devices, messaging applications, and other communication channels.

Unless expressly agreed otherwise, electronic communications do not by themselves create a binding contractual commitment except where they form part of, or expressly constitute, an accepted contractual document or authorized transaction.

WORKS may retain electronic communications and related records where reasonably necessary for business, contractual, legal, security, administrative, or evidentiary purposes.

26. Changes to These Terms

WORKS TECH CAPITAL INTERNATIONAL L.L.C. may update these Terms from time to time to reflect changes in its website, services, business practices, technologies, legal or regulatory requirements, or operational and contractual arrangements.

The latest version of these Terms will be published on this website and identified by the applicable **Last Updated** date.

Any changes will apply from the date they are published or otherwise stated to take effect.

Changes to these Terms will not retrospectively alter the terms of an existing contract, project, or engagement unless such change is agreed by the relevant parties or is otherwise permitted or required by applicable law.

27. Governing Law & Jurisdiction

These Terms and any non-contractual matters arising from or relating to the use of this website are governed by the laws of the **State of Wyoming, United States of America**, without regard to conflict-of-law principles, except where mandatory applicable law requires otherwise.

Subject to any mandatory rights or jurisdiction that cannot lawfully be excluded, the state and federal courts having jurisdiction in **Wyoming, United States of America** shall have jurisdiction over disputes arising from or relating to these Terms or the use of this website.

Any specific service agreement, project agreement, licence, statement of work, order, or other contractual arrangement may contain separate provisions concerning governing law, jurisdiction, dispute resolution, arbitration, or venue. Where such provisions apply, they will govern the relevant engagement.

Nothing in this section is intended to exclude or restrict any mandatory legal right, remedy, or jurisdiction that cannot lawfully be excluded or limited.

28. Languages & Governing Version

These Terms are published in English as the official and governing reference version of **WORKS TECH CAPITAL INTERNATIONAL L.L.C.**

An Arabic version, and any other translations that may be made available, are provided for convenience, accessibility, and communication purposes.

In the event of any inconsistency, ambiguity, or difference of interpretation between the English version and any translation, the English version shall prevail, unless otherwise required by applicable law or expressly agreed in writing.

Where any proposal, quotation, statement of work, agreement, licence, order, notice, or other contractual or business document is issued in more than one language, the governing language shall be determined by the relevant document, agreement, or applicable legal requirement.
